

# QW Retriever Bag

## QW Retriever Bag

Retrieval Bag is comprised of:

- a flexible plastic bag with a large, easily accessible opening
- a push/pull rod with a thumb ring handle, finger rings, string and suture and an introducer tube.
- In fully deployed condition, the opening is maintained in a fully-open position by a metallic rim.
- A string with a special guide, facilitates the closing of the specimen-bag after removal of the tissue

CE 0197

Instrument No.	Bag Diameter × Length	Diameter Introducer Tube	Volume
QW-3	50 mm × 100 mm	10 mm	140 ml
